**DETAILED ACTION**

***Allowable Subject Matter***

1. An "Amendment" was received on October 8, 2004, in response to a telephonic interview with the inventor on October 6, 2004.
2. Claims 1-15 are allowed.
3. The following is an examiner's statement of reasons for allowance:
4. With respect to independent claims 1 and 13, prior art fails to disclose a target system for confining a material sample to be irradiated with a beam of charged particles for producing a radioisotope, the system comprising a first body having a substantially enclosed chamber which includes an entrance end through which charged particles are permitted to enter the chamber, and means mounted within the first body for heating, when desired, the material sample to an elevated temperature and for preventing the body from exceeding a pre-selected temperature wherein the associated means include a second body attachable to the first body adjacent the entrance end of the chamber and including at least one fluid-conducting passageway, and the associated means further includes means for directing a cooling liquid through the passageway.
5. With respect to independent claim 9, prior art fails to disclose a target system for confining a material sample to be irradiated with a beam of charged particles for producing a radioisotope in form of a chamber having an entrance end through which charged particles are allowed to enter the chamber and is elongated in shape as a path

is traced there along from the entrance end and has a longitudinal axis, and means for generating a magnetic field parallel to the longitudinal axis of the chamber.

Claims 2-8 and 10-12 are allowed by virtue of their dependencies on the independent claims 1, 9 and 13.

### ***Conclusion***

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments of Statement of Reasons for Allowance".
